

MEET THE FLORES FAMILY

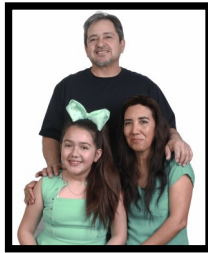

The Flores Family consist of three members Juan, Maria, and their daughter Emily. Although they currently live here in the United States, Juan is originally from Tamaulipas, Mexico and Maria from Guanajuato, Mexico. Both migrated to the United States in search of the American Dream, not knowing their lives would be changed drastically with the struggle of a new language and life style. They met here in Texas at a Christian Church, fell in love and got married.

Later they welcomed their daughter Emily to the world. She is now in 5th grade, goes to McKinney ISD, and the Flores' family could not be any more proud of her as she is a straight A student.

The Flores Family has been living in apartment complex since they came to the US, but have never given up on their dream to become homeowners. Now after so long, they are in the process of becoming homeowners, thanks to Habitat for Humanity and all of their sponsors.

In Maria's words "I am very thankful that Habitat helped us fulfill our dream, but especially my daughter's dream of having a rainbow on her wall. Since we always lived in rental homes we have never been able to paint her room the way she wants it"

In Juan's words "It was an unattainable dream for which we did not have the economic means to achieve, and Habitat has been a great blessing to fulfill our dream"
